

cod. LMPLD5T

lampeggiatore ONE UP LED

Italiano

24 LED

ONE UP LED può essere alimentato con tensioni variabili da 20V a 30V - AC/DC

INSTALLAZIONE STANDARD

Può essere installato a parete utilizzando la staffa e le viti in dotazione.

INSTALLAZIONE SU COLONNINA

Può essere installato direttamente su colonna (anche piramidale), non utilizzando la staffa in dotazione.

abbinato a MODULO RADIO cod. RADCN4T

La staffa in dotazione del lampeggiatore ONE UP offre la possibilità di ospitare al suo interno il **modulo radio** cod. RADCN4T (se disponibile). Questa operazione può aumentare in maniera considerevole la portata del segnale.

abbinato a RADIO ANTENNA DA ESTERNO cod. RANRC5T

ONE UP può essere installato in combinazione con la **radio antenna da esterno** cod. RANRC5T (se disponibile). Questa operazione può aumentare in maniera considerevole la portata del segnale.

cod. LMPLD5T

ONE UP LED flashing lamp

English

24 LED

ONE UP LED works with a AC/DC voltage supply ranging from 20V to 30V

STANDARD INSTALLATION

Can be installed on the wall using the brackets and the screws supplied.

INSTALLATION ON A COLUMN

Can be installed directly on a column (even pyramidal), without using the bracket supplied.

combined with RADIO MODULE cod. RADCN4T

The supplied bracket of the flashing lamp **ONE UP** can host inside the **radio module** cod. RADCN4T (if available). This operation can significantly increase the signal range.

combined with OUTDOOR RADIO ANTENNA cod. RANRC5T

ONE UP can be installed in combination with the **outdoor radio antenna** cod. RANRC5T (if available). This operation can significantly increase the signal range.

cod. LMPLD5T

lampe clignotante ONE UP LED

Français

24 LED

ONE UP LED peut être alimenté avec des tensions variables de 20V à 30V - CA/CC

INSTALLAZIONE STANDARD

Peut être installée au mur en utilisant le support et les vis fournies.

INSTALLAZIONE SUR COLLONE

Peut être installée directement sur une colonne (même pyramidale) sans utiliser le support fourni.

en combinaison avec le MODULE RADIO cod. RADCN4T

Le support fourni avec la lampe clignotante **ONE UP** offre la possibilité d'installer dans son intérieur le **module radio** cod. RADCN4T (si disponible). Cette opération peut augmenter considérablement la portée du signal.

en combinaison avec L'ANTENNE RADIO EXTERNE cod. RANRC5T

ONE UP peut être installée en combinaison avec l'**antenne radio externe** cod. RANRC5T (si disponible). Cette opération peut augmenter considérablement la portée du signal.
